

Biography

Gail D. Porter, GISP

Gail Porter has 9 years of experience working in the Geographic Information Systems field at the City of Blue Springs and prior to her time with the City she had 22 years working in drafting and design at the Kansas City engineering firm Burns & McDonnell.

Gail's educational and professional experience is supported with a Bachelor of Arts in Geography from University of Missouri Kansas City (Cum Laude) and a Certified Geographic Information Systems Professional (GISP) designation through the Urban and Regional Information Systems Association (URISA).

Gail's current position is GIS Coordinator for the City of Blue Springs where she works with all City departments and external agencies to maintain and develop the City's GIS capabilities. She is a member of the Kansas City Arc/Info Users Group and the KC Metro GIS Committee.
